ISSUES

Severity	CWE	Title	Location	Status
critical	CWE-798	Hardcoded Secret Detected (generic api key)	/Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py:981	confirmed

DETAILS

Hardcoded Secret Detected (generic api key) (critical)

CWE: CWE-798
Status: confirmed
Location: /Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py:981

Detected sensitive credential pattern (generic-api-key) in developer_portal.py at line 981. Rotate it immediately and move it to environment variables or a secret vault.

Reason: A plaintext credential (generic-api-key) was found hardcoded in source code, potentially exposing access to unauthorized parties.

Remediation: Rotate this secret immediately, revoke previous credentials, and configure dynamic environment variables or secret management vaults (e.g. AWS Secrets Manager, HashiCorp Vault).

SUGGESTED FIX

File: /Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py

```
// /Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py
-export const API_SECRET_KEY = "sk-live-98234891283491823791823";
-export const DB_PASSWORD = "production_super_secret_database_pass";
+export const API_SECRET_KEY = process.env.API_SECRET_KEY || "";
+export const DB_PASSWORD = process.env.DB_PASSWORD || "";
```

TAINT PATH (SECRET-EXPOSURE)

- source — Hardcoded Secret (generic-api-key)
(/Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py:981)
- sink — Exposed Credential Location in developer_portal.py:981
(/Users/jayesh/Documents/cmd-d_llm/app/api_provider/developer_portal.py:981)

SECRETS

No secrets detected.
